SERVICE & SUPPORT SOLUTIONS

MACHINE REBUILDS

When it comes to overall productivity and operating cost, a Cat® machine is the best equipment investment you can make. When most competitive models reach the end of their life cycle, replacement may be the only solution. But Cat® equipment has a sustainable design that allows the machine to be remanufactured by reusing many of the original parts, reducing waste and delivering a cost-effective alternative to replacing with new equipment that will:

- Remanufacture to like-new performance at a fraction of the cost of buying new
- Recycle on average 75% of your machine
- Incorporate application-specific engineering improvements and updates
- Restore to like-new appearance with repainting and new identifying graphics
- Qualify for extended power train warranty up to 5 years/10,000 hours

Recycling your machine saves the energy, fuel and resources it takes to manufacture a new machine, which also helps reduce the industry's carbon footprint.

MAJOR COMPONENT REBUILDS

Lower operating costs and minimize downtime with Ring Power Component Rebuilds.

- Engine Rebuilds
- Transmission & Torque Converter Rebuilds
- Engine Component Services
- Power Train Component Rebuilds

For over 45 years Ring Power has built a “Customers First” reputation by providing the highest quality support at every level. Here are just a few of the services we offer.

AUCTION SERVICES

Have you purchased a machine that needs repairs prior to shipping to its final destination? We service any machine you buy from anywhere with quick turnaround from multiple locations.

- Inspections
- Repairs
- Transport
- Dismantling
- Containerizing
- Freight Forwarding

HYDRAULIC CYLINDER ROD RESURFACING & REPAIR

- Advanced Chrome Technologies (ACT), a high-velocity, thermal coating process
- Fast turnaround
- Superior wear
- Quality Control. Every cylinder goes through a stringent inspection process to ensure the highest quality repair in the industry.
- 1 Year/2000 Hour Warranty.
- Testing. Three position pressure testing at 3,000 PSI simulates the working environment and ensures a leak free repair.
- Large Cylinders. We can handle the big jobs. Our disassembly bench and hone can handle cylinders up to 35 ft. in length.

8

Ring Power

SERVICE & SUPPORT SOLUTIONS

HYDRAULIC PUMP & MOTOR REPAIR

- 30 years experience
- RexRoth, Sunstrand, Commercial, Denison, Linde, Vickers and more
- 200 hp test bench
- Valves, swivels, hammers, etc.

PAINT SHOP

Ring Power's state-of-the-art paint finishing facilities can help restore and protect the value of your equipment with a reasonably priced, high-quality factory finish. Your equipment—whether it's a bulldozer, truck, tractor, boat, crane, missile carrier or torpedo launcher—will be pressure washed, sandblasted, primed and painted with the utmost care and returned to you quickly, looking almost like the day you bought it.

PREVENTIVE MAINTENANCE

There's never a convenient time for machine repairs, but on-site preventive maintenance comes close. Our OSHA and MSHA qualified technicians will identify problems before they occur to keep your machines up and running for maximum productivity with minimum downtime.

AUTOMATED LUBRICATION SYSTEMS

- Constant lubrication of machine components while machine is in operation extends bearing and cylinder life and reduces downtime
- Closed system prevents contamination
- Provides quick payback on investment
- Installation in one day at 14 convenient Ring Power branch locations
